

Appendix 1 – St Bees Heritage Coast Boundaries: Existing & Proposed

Existing Boundary

Proposed Extension

Note: A seaward boundary for the proposed extension is not shown, since Heritage Coasts do not have seaward boundaries. Natural England advise that for illustrative mapping purposes, closed polygons are used with the seaward "boundary" being an arbitrary line a short distance offshore (hence the boundary shown for the currently designated area), but note that the marine component of a Heritage Coast could extend to the limit of territorial waters.
